Centre for Sociological Studies Faculty of Social and Political Sciences University of Indonesia

Company Profile
LabSosio is a sociological research center that contributes to the development of sociology (as an empirical social science) and the development of innovative Indonesian social policies towards a more equitable and democratic society reformation and transformation. LabSosio was established in 1987 as a mean of research for sociologists in conjunction with teaching activities. Through this activity, the sociologists implement a variety of empirical and theoretical knowledge of the problems and issues of social change in the undergoing transition Indonesian society.

VISION AND MISSION

Vision
To become a leading, innovative, and professional institution that has integrity in research, services, and community engagement in Sociology at the national and Southeast Asia level towards a transformative and inclusive society.

Mission
- Creating academic atmosphere among lectures and students through Research Cluster.
- Disseminating and publish research finding, community engagement result through research cluster.
- Developing innovation in social transformation model toward inclusive society.
- Consultation and social research services.
- Capacity building in social research, academic writing, and community empowerment.

ACTIVITIES

Research Cluster
Research cluster is a group of researchers working on the development of analysis and thought in a particular sociological subject of interest. In the Research Cluster, members actively contribute to research, routine discussion, seminar, and publication. LabSosio manages nine research cluster, and through our research clusters, we conduct numerous research based on each focus and topics in research cluster and sub-clusters. Our research agenda is Societal Transformation Toward Inclusive Society. The Research Clusters are:

1. Rural ecological society
2. Economy, organization, and society
3. Relation between society and extractive industries
4. Urban social development toward inclusive society
5. Sustainable economic management of natural resources and extractive industries
6. Social inclusion and transformation
7. Education and social transformation
8. Family, Gender, and social transformation
9. Cultural transformation and new media

Community Engagements

Community Engagements in LabSosio is our commitment to engage with the society and the public to improve their civic and citizenship capacity. The social activities include community development, community empowerment, conflict transformation, apprenticeship, and residency.

Publication

This is an activity for the dissemination of current development of sociological enterprise at the University of Indonesia. Our publication are

- Masyarakat; Jurnal Sociology. Our Journal of Sociology is nationally accredited, internationally peer-reviewed, with two volumes annually.
- Working papers
- Sociological books, both self-published or cooperation with Universitas Indonesia Press or other publishers available.

SERVICES

LabSosio UI offers a topnotch service in research and training scope. Our services including basic research, applied research, program planning, strategic planning, training, and workshop.

Research

Research is our major activity of the institution. The research focuses on the policy development in conjunction with relevant middle-range theory construction, on current problems and issues of social development. Research in LabSosio has a strong core:
- Sociological and interdisciplinary analysis focusing on problem identification and solutions
- We exercise both quantitative and qualitative methodologies to deliver:
  - Assessment study
  - Stakeholder analysis
  - Monitoring and evaluation study
  - Social mapping
- Baseline study
- Longitudinal qualitative study

**Training**
Our service training offers short courses for academics, activists, students, government officials, corporate, and other interested parties. From one session seminars to one week programs, our tailored training programs will be designed and delivered to meet stakeholders’ needs. We provide unique curriculums, participative and student-centered learning methods with experienced instructors and facilitators, database, and up to date learning cases.

Our prominent courses:
- Social research methods: quantitative and qualitative
- Community development or corporate social responsibilities (CD/CSR)
- Social planning and strategic management
- Writing skills for academic purposes.

**Research Associates**
Our client and network vary from central government, local government, national and international NGOs, private sectors, and we also collaborating research from universities. LabSosio also has networking throughout Indonesia, through Association of Undergraduate Programs on Sociology in Indonesia (APSSI), we are able to collaborate with professional lectures and researcher from sociology undergraduate program in every province in Indonesia. Some of our researchers also have personal membership national and international network, such as ISI (Association of Indonesian Sociology), ISA (International Sociology Association), IPPA (International Public Policy Association). LabSosio is home for researchers in the Department of Sociology Universitas Indonesia associated with nine research clusters.
